Crisis24 Delivers Excellence in Travel Health Risk Management with GIDEON

"My team extensively uses GIDEON to maintain location intelligence and deliver timely disease outbreak alerts to our clients."

Robyn Mazriel
Health Intelligence Analyst at Crisis24

About Crisis24: Advancing global health intelligence

Crisis24 is a global leader in security risk management, dedicated to making experience-based safety solutions accessible wherever they matter most.

By using cutting-edge tools and data-driven insights, Crisis24 helps safeguard individuals, corporations, and their valuable assets worldwide. Their commitment to excellence drives their innovative approach to travel risk management.

Impact of the Crisis24-GIDEON 11-year partnership: A snapshot

- Crisis24 agents spend over 500 hours a year on the GIDEON platform
- 600% increase in GIDEON platform usage after the COVID-19 pandemic
- GIDEON seamlessly integrates into daily health intelligence operations

Strengthening health risk monitoring capabilities

Every day, health intelligence analysts at Crisis24 shoulder immense responsibilities. In a world where globalization connects people like never before, travelers move across borders constantly, and plans can change at a moment's notice.

Crisis24's analysts need to stay ahead of evolving threats to keep clients informed and protected in a timely manner.

Intelligence analysts like Robyn and her colleagues rely on GIDEON's robust tools to turn complex datasets into actionable insights, helping Crisis24's clients navigate global health risks.

How GIDEON helps Crisis24 achieve their mission

GIDEON's 11-year partnership with Crisis24 helps boost travel safety. Here's how.

Real-time monitoring and global insights

GIDEON checks over 20,000 sources daily to deliver the latest disease data from around the world. For Crisis24 analysts, it's like having a massive library of health information available instantly.

Interactive mapping for clear communication

Crisis24 uses GIDEON's outbreak and vaccination maps to visualize and communicate health risks. These interactive maps transform complex data into clear insights, letting analysts assess global risks at a glance.

GIDEON outbreak maps

Dynamic data visualization tools

GIDEON's customizable charts transform travel advisories into practical solutions. With 60,000+ ready-to-use graphs, analysts can create targeted recommendations to address specific traveler needs.

Timely country-specific advisories

From Ebola outbreaks in Uganda to dengue risks in Thailand, GIDEON helps analysts provide fast, accurate information about diseases in specific regions.

Efficient bioterror risk tools

GIDEON's platform strengthens crisis readiness by integrating clinical bioterror data, exposure scenarios, and proven countermeasures. Risk analysts can leverage this intelligence to enhance traveler protection strategies.
